--	---	--

## Who this is for

Professional-grade drying and cleaning equipment for small projects in Chatham-Kent and nearby communities. If you have an active loss (standing water, sewage backup, widespread mold, or fire damage), calling us first is usually the safest and fastest option.

## Available equipment (common requests)

- **Air Movers (High-velocity fans)** — Speed up drying for floors, walls, and contents.
- **Dehumidifiers** — Reduce humidity and remove moisture from the air during drying.
- **HEPA Air Scrubbers** — Air filtration support for dust control and improved air quality during work.
- **Moisture Monitoring** — Basic guidance so you know when materials are actually dry.
- **Containment & Safety Supplies** — Plastic, tape, and accessories to help isolate work areas where appropriate.

## What to expect

- **Pickup/Return:** Scheduled pickup and return times (availability varies).
- **ID/Deposit:** ID and a refundable deposit may be required depending on equipment type.
- **Basic orientation:** Simple operating guidance at pickup. Not a substitute for professional remediation when conditions are hazardous.
- **Cleanliness:** Equipment must be returned reasonably clean to avoid cleaning fees.

## Pricing

Pricing depends on equipment type, duration, and availability. For current rates, call 226-799-1920 or email info@thamesvalleyrestoration.ca.

## Service area

Chatham-Kent and nearby communities (including Wallaceburg, Blenheim, Ridgetown, Dresden, and Thamesville).

**Important:** This brochure is general information and is not legal, insurance, or health advice. If you suspect sewage contamination, significant mold growth, or unsafe conditions, do not rely on rental equipment alone—call us.
